

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## BOARD OF EXAMINERS.

---

JAMES C. COFFEY, *Chairman*, . Worcester.

CHARLES R. FELTON, . . Brockton.

DAVID CRAIG, *Clerk*,

68 Broad Street, Boston.

## NOTICE.

---

The State Examiners of Plumbers have to do with the licensing of plumbers only, the supervision of plumbers and plumbing being entirely in the hands of local authorities.

---

## IMPORTANT.

---

Until further notice this list in book form will not be published yearly. In future, additional names, changes of address and information relative to other changes that may occur throughout the year only will be published and distributed.

# LAWS RELATING TO THE BUSINESS OF PLUMBING.

---

REVISED LAWS, CHAPTER 103.

## OF THE SUPERVISION OF PLUMBING.

SECTION 1. No person, firm or corporation shall engage in or work at the business of plumbing, either as a master or employing plumber or as a journeyman plumber, unless he or it has received a license or certificate therefor in accordance with the provisions of this chapter. The words "practical plumber", as used in this chapter, shall mean a person who has learned the business of plumbing by working for at least two years as an apprentice or under a verbal agreement for instruction, and who has then worked for at least one year as a first class journeyman plumber. The word "journeyman", as used in this chapter, shall mean a person who himself does any work in plumbing which is by law, ordinance, by-law, rule or regulation subject to inspection.

SECTION 2. Any person who, not having been engaged in or working at the business of plumbing prior to the tenth day of July in the year eighteen hundred and ninety-three, desires to engage in or work at said business, either as a master or employing plumber or as a journeyman plumber, shall apply to the board of health of the city or town in which he intends to engage in or work at said business, or to the inspector of buildings in cities or towns in which such inspector has control of the enforcement of the regulations relative to plumbing, and shall, at a time and place designated by the board of examiners provided for in the following section, to whom such applications shall be referred, be examined as to his qualifications

by any inspectors other than those provided for by this chapter shall not be a compliance with the provisions hereof.

SECTION 6. No inspector of plumbing shall inspect or approve any plumbing work done by himself, or by any person by whom he is employed, or who is employed by or with him, but in a city or town which is subject to the provisions of this chapter the inspector of buildings or the board of health, as provided in the preceding section, shall appoint an additional inspector of plumbing, in the same manner and subject to the same qualifications as the regular inspector of plumbing, who shall inspect, in the manner prescribed in this chapter, plumbing done by the regular inspector or by any person by whom he is employed, or who is employed by or with him. Said additional inspector may act in case of the absence or inability of the regular inspector, and shall receive for his services the same compensation as the regular inspector for a like duty. The provisions of this section shall not apply to any city or town which has established or shall establish an annual salary for the inspector of plumbing, and in any such city or town, the inspector of plumbing shall not engage in or work at the business of plumbing.

SECTION 7. Each city, except Boston, the city council of which accepts the provisions of this section or has accepted the corresponding provisions of earlier laws and each town of five thousand inhabitants or more, or which has a system of water supply or sewerage, shall by ordinance or by-law prescribe regulations for the materials, construction, alteration and inspection of all pipes, tanks, faucets, valves or other fixtures by and through which waste water or sewage is used and carried; and shall provide that such pipes, tanks, faucets, valves or other fixtures shall not be placed in any building in such city or town, except in accordance with plans approved by the inspector of buildings, if he has control as provided in section

five, or if he has not such control, by the board of health; and shall further provide that no plumbing shall be done, except to repair leaks, without a permit first being issued therefor, upon such terms and conditions as such cities or towns shall prescribe. The provisions of this section shall not prevent boards of health from making such regulations relative to plumbing and house drainage authorized by law prior to the sixth day of July in the year eighteen hundred and ninety-four as are not inconsistent with any ordinance or by-law made under the authority of this section.

SECTION 8. Whoever violates any provision of this chapter or any ordinance, by-law or regulation made hereunder shall be punished by a fine of not more than fifty dollars for each offence, and, if he holds a license under the provisions of this chapter, his license may be revoked by the inspector or board which issued it. If the offence was committed in a city or town other than that in which he received his license, the person or board authorized to grant licenses to plumbers in such city or town may forbid him to engage in or work at the business of plumbing for not more than one year in such city or town. If a registered plumber to whom a certificate has been issued violates any provision of this chapter or any ordinance, by-law or regulation made hereunder, either the inspector of buildings or board of health which issued his certificate, or the person or board authorized to grant licenses to plumbers of the city or town in which the offence was committed, may forbid him to engage in or work at the business of plumbing in such city or town for not more than one year. Whoever engages in or works at the business of plumbing in any city or town in which he has been forbidden so to do under the provisions of this section shall be punished by a fine of not more than one hundred dollars for each offence. Any city or town subject to the provisions of this chapter which refuses to comply with any of its pro-

him to engage in or work at the business of plumbing, either as a master or employing plumber or as a journeyman plumber.”] They shall hold frequent examinations in the city of Boston. They shall also, twice in each year, hold examinations at five other convenient points within the commonwealth. Public notice shall be given of all examinations.<sup>1</sup> Application for examination shall be made in the handwriting of the applicant, and he shall be notified by the state examiners of plumbers as to the time and place of examination.<sup>2</sup> The state examiners of plumbers may, without the payment of any fee therefor, issue a probationary license, good for a term of six months, to one who, having worked either as an apprentice, or under a verbal agreement for instruction, for not less than three years, presents an application therefor, bearing a written indorsement signed by his employer in which the employer agrees to be responsible for all work done under the license and to have the apprentice present himself for examination as a journeyman plumber at the expiration of the term for which the license was issued.

SECTION 3. It shall be the duty of the board of health of every city and town, or of the inspector of buildings of every city and town in which the inspector of buildings has control of the enforcement of the regulations relative to plumbing, to furnish the state examiners of plumbers within three months from the passage of this act with a correct list of the names and addresses of all registered or licensed plumbers within such city or town. All persons already holding legal certificates of registration may, within six months from the passage of this act, register anew with the state examiners of plumbers. A license heretofore issued to a person after an examination shall continue in effect for the term for which it was issued, but may be exchanged, without payment of an addi-

---

<sup>1</sup> For dates of examination see p. 20.

<sup>2</sup> For rules for examination see p. 20.

tional fee, for a license issued by the state examiners of plumbers. Persons who have worked as journeymen plumbers, and who are registered as master plumbers under the provisions of chapter four hundred and fifty-five of the acts of the year eighteen hundred and ninety-four, shall be granted certificates of registration as journeymen plumbers; and persons who have passed the examination for, and who hold master plumber's licenses, shall without further examination be granted journeymen plumbers' licenses by the state examiners of plumbers. The fees for registration, and for the license of a master plumber, shall be two dollars each. The fees for examination, and for renewals shall be fifty cents each. The fees for the registration and for the license of a journeyman plumber shall be fifty cents each. Fees received by the said examiners shall be paid monthly by their clerk into the treasury of the commonwealth. The report of the state examiners of plumbers shall be a part of the annual report of the state board of health.

SECTION 4. Certificates and licenses issued by the state examiners of plumbers shall be valid and have effect throughout the commonwealth. The said examiners shall from time to time forward to the board of health of each city and town, or to the inspector of buildings of each city and town in which the inspector of buildings has control of the enforcement of the regulations relative to plumbing, a list of the names and addresses of all persons within such city or town who have been granted plumber's licenses or certificates. Licenses shall be issued for the term of one year, and shall be renewable on or before the first day of May in each year upon the payment of the required fee. Each holder of a master plumber's certificate or of a license shall register his name and business address with the board of health of the city or town where the holder thereof desires to engage in the business of plumbing as a master plumber; except that in a city or town where

the inspector of buildings has control of the enforcement of the regulations relative to plumbing, such holder shall register his name and address with the inspector of buildings. The said examiners may, after notice and a hearing, revoke the license of any person who, after having been convicted of a like offence, has violated any regulation relative to plumbing. If the holder of a certificate of registration or a license has, in the opinion of a board of health of a city or town or of the inspector of buildings of a city or town in which such inspector has control of the enforcement of the regulations relative to plumbing, violated any statute, ordinance, by-law, rule or regulation relative to plumbing, the board of health or the inspector of buildings, if said inspector has control of the enforcement of regulations relative to plumbing, of the city or town where such violation is deemed to have been committed, may request the state examiners of plumbers to forbid such holder to engage in the business of plumbing as a master plumber, or to work at the business of plumbing as a journeyman plumber within such city or town, for a term not exceeding thirty days. After notice and after hearing both parties, the state examiners of plumbers shall serve notice of their decision on each of the parties interested. No person shall do any work in plumbing which is subject to inspection, unless he has been registered or licensed as a journeyman plumber in accordance with the provisions of this act, and his certificate or license shall be exhibited whenever required by the inspector of plumbing. Every master plumber's certificate or license shall at all times be displayed conspicuously within his place of business.

SECTION 5. Upon petition of the board of health of any town which has not accepted the provisions of chapter one hundred and three of the Revised Laws, the said examiners shall formulate rules relative to the construction, alteration, repair and inspection of all plumbing

work within such town, which rules, when approved by the state board of health and accepted by the board of health of such town and published once a week for three consecutive weeks in some newspaper published in said town, if any, otherwise in a newspaper published in the county in which said town is situated, shall thereafter have the force and effect of law. Rules formulated as provided in this section may from time to time be revised upon a similar petition of the board of health of such town. The board of health of such town shall, within thirty days after rules formulated as provided herein have taken effect, appoint an inspector of plumbing having such qualifications and duties as are specified or referred to in sections five and six of chapter one hundred and three of the Revised Laws. Such inspector shall hold office for the term of three years, unless sooner removed for cause, and after a hearing. He shall receive such compensation as may be determined by the board appointing him, subject to the approval of the selectmen, which compensation shall be paid from the treasury of the town. Appeal from a decision of any inspector appointed under authority of this section may be made to the state examiners of plumbers within ten days from the date of notice of such decision. The appellant shall deposit with the state examiners of plumbers the sum of five dollars, and if the appeal is sustained, the deposit shall be refunded to him. If the appeal is not sustained, the deposit shall be forfeited and shall be paid by the clerk of the state examiners of plumbers into the treasury of the commonwealth. The decision of said examiners shall be subject to the approval of the chairman of the state board of health, and a copy of the decision shall be served on each of the persons interested. All decisions of said examiners shall be subject to review by the superior court.

SECTION 6. Two or more towns may unite and form an inspection district, the expense at-

tending the same to be paid on such basis as may be agreed upon by the boards of health of the towns forming such district.

SECTION 7. Inspectors of plumbing now holding office and in receipt of an annual salary shall be deemed to have been appointed under the rules of the civil service commission relative to classification, and such inspectors may perform such other inspection service as may be required by the board of health or by the inspector of buildings having control of the enforcement of regulations relative to plumbing. All inspectors hereafter appointed to like positions shall be certified from the classified lists of the civil service commission.

SECTION 8. Cities and towns that have continued to operate under the provisions of chapter four hundred and seventy-seven of the acts of the year eighteen hundred and ninety-three or of acts in amendment thereof, shall be deemed to have accepted the provisions of chapter one hundred and three of the Revised Laws.

SECTION 9. The words "master or employing plumber", as used in chapter one hundred and three of the Revised Laws, shall be deemed to mean a plumber having a regular place of business and who himself, or by journeymen plumbers in his employ, performs plumbing work. The word "corporation", as used in said chapter one hundred and three, shall be deemed to mean a corporation formed for the purpose of engaging in the business of plumbing.

SECTION 10. Every person engaging in the business of plumbing as a master plumber, or working at the business of plumbing as a journeyman plumber, not having been registered or licensed as herein provided; and every person engaging in or working at the business of plumbing in a city or town where he has been forbidden so to do under the provisions of section four of this act; and every person violating any provision of this act or any rule or regulation made thereunder shall be punished

by a fine not exceeding fifty dollars for each offence.

SECTION 11. Upon the appointment of the state examiners of plumbers, the authority of the boards of examiners of plumbers appointed under the provisions of chapter one hundred and three of the Revised Laws shall cease, and said boards shall thereupon be abolished.

SECTION 12. All acts and parts of acts inconsistent herewith are hereby repealed. The provisions of this act in so far as they are the same as the provisions of chapter one hundred and three of the Revised Laws shall be construed as a continuation of said chapter and not as new enactments. [*Approved June 19, 1909.*]

---

ACTS OF 1910, CHAPTER 597.

AN ACT RELATIVE TO THE SUPERVISION OF THE  
BUSINESS OF PLUMBING.

*Be it enacted, etc., as follows:*

SECTION 1. The compensation of the state examiners of plumbers, together with the travelling and other necessary expenses of the clerk and the travelling and other necessary expenses of the other two state examiners to an amount not exceeding in the aggregate five hundred dollars annually for such expenses of said other two state examiners, shall, when approved by the chairman of the state board of health and by the governor and council, be paid from the treasury of the commonwealth.

SECTION 2. Certificates of registration in accordance with the provisions of section two of chapter four hundred and fifty-five of the acts of the year eighteen hundred and ninety-four shall be issued to all persons who have been legally registered under the provisions of said chapter, provided that such persons, after notice, register anew with the state examiners of plumbers on or before the first day of September, nineteen hundred and ten.

SECTION 3. So much of chapter five hundred and thirty-six of the acts of the year nineteen hundred and nine as is inconsistent herewith is hereby repealed.

SECTION 4. This act shall take effect upon its passage. [*Approved June 9, 1910.*]

---

ACTS OF 1912, CHAPTER 518.

AN ACT RELATIVE TO THE REGISTRATION OF  
PLUMBERS.

*Be it enacted, etc., as follows:*

SECTION 1. Certificates of registration in accordance with the provisions of chapter one hundred and three of the Revised Laws and of chapter five hundred and thirty-six of the acts of the year nineteen hundred and nine, shall be issued to all persons who registered in accordance with, and to whom certificates were issued under, the provisions of either of said chapters, or under the provisions of chapter four hundred and fifty-five of the acts of the year eighteen hundred and ninety-four: *provided*, that such persons, after receipt of actual notice of the provisions of this act by registered mail or otherwise, shall register anew with the state examiners of plumbers within sixty days after the receipt of such notice.

SECTION 2. So much of chapter five hundred and thirty-six of the acts of the year nineteen hundred and nine and of chapter five hundred and ninety-seven of the acts of the year nineteen hundred and ten as is inconsistent herewith is hereby repealed.

SECTION 3. This act shall take effect upon its passage. [*Approved April 18, 1912.*]

## ACTS OF 1914, CHAPTER 287.

## AN ACT RELATIVE TO THE BUSINESS OF PLUMBING.

*Be it enacted, etc., as follows:*

Chapter five hundred and thirty-six of the acts of the year nineteen hundred and nine is hereby amended by striking out section ten and inserting in place thereof the following new section:—*Section 10.* Every person engaging in the business of plumbing as a master plumber, or working at the business of plumbing as a journeyman plumber, not having been registered or licensed as herein provided; and every person engaging in or working at the business of plumbing in a city or town where he has been forbidden so to do under the provisions of section four of this act; and every person engaged in the business of plumbing as a master plumber or employing plumber who engages or employs any person to work as a journeyman plumber who has not been registered or licensed as provided by this act; and every person violating any provision of this act or any rule or regulation made hereunder, shall be punished by a fine not exceeding fifty dollars for each offence. *[Approved April 2, 1914.]*

## RULES FOR EXAMINATION.

---

Three years' service in mechanical department of plumbing business will be required before applicants are eligible for examination for license.

Examinations shall consist of tests in written, oral and practical plumbing. Two hours will be the time limit on written examinations.

All applications for examinations shall be in the hands of clerk one week before day of examination.

Candidates for license must receive 70 per cent. on examination to have license granted.

Candidates failing to reach the required 70 per cent. will not be re-examined for three months and those receiving less than 50 per cent. will not be re-examined for a period of six months.

Applicants for a master plumbers' license must have had three years' experience as a journeyman or practising plumber before they can be considered eligible for examination.

*Notice will be sent to applicants for license when and where examination will be held, and only those so notified will be examined on that day.*

JAMES C. COFFEY,  
CHARLES R. FELTON,  
DAVID CRAIG, *Clerk*,  
*State Examiners of Plumbers.*

For application blank or other information apply to office of clerk, 68 Broad Street, Boston, Mass.

(Stamps will not be received in payment for licenses. Please send cash, money order or check.)

## **PLUMBING RULES**

FORMULATED BY THE

### **State Examiners of Plumbers**

AS REQUIRED BY SECTION 5, CHAPTER 536, ACTS OF 1909

JANUARY, 1911.

---

#### **REGISTRATION.**

**SECTION 1.** Ninety days after acceptance of the following plumbing regulations all persons who desire to engage in, carry on or work at the business of plumbing within this jurisdiction shall be registered by the State Examiners of Plumbers, in accordance with the provisions of chapter 536, Acts of 1909.

#### **PERMITS.**

**SECTION 2.** Upon application of a registered master plumber, on form furnished by the Board of Health, said Board shall grant written permit to do certain plumbing described therein, when in conformity with the law. Drawings of proposed work shall be filed if required. Permits may be recalled by the Board of Health if conditions are violated. Permits for all plumbing, except repair of leaks, must be in the hands of the plumber before beginning work.

#### **SEWAGE DISPOSAL.**

**SECTION 3.** The plumbing of each building shall have an independent connection to public sewer or private drain outside of building, unless, in the opinion of the authorities, a separate connection is not feasible. If sewer is not available, a septic tank or cesspool shall be provided.

### DRAINAGE SYSTEM.

**SECTION 4.** The drain from a point 10 feet outwardly from inside of wall, and not less than 4 inches in diameter, shall continue with at least  $\frac{1}{4}$ -inch rise per foot to and through roof to a height of at least 8 feet where roof is used for clothes-drying or other purposes, at least 2 feet in any case, and 1 foot above any window or opening within 15 feet. The use of running trap on drain at entrance to building is optional. Connections and changes in direction shall be made with long angle and long sweep bends and Y branches. Soil and waste pipes shall not have less than the following diameters: —

	Inches.
Minimum branch waste, . . . . .	1 $\frac{1}{4}$
Branch waste for urinals, . . . . .	1 $\frac{1}{2}$
Branch waste for sinks, . . . . .	1 $\frac{1}{2}$
Branch waste for wash trays, . . . . .	1 $\frac{1}{2}$
Main waste, . . . . .	2
Main waste for sinks, five floors or more, . . . . .	3
Soil pipe, . . . . .	4

Except that by permission of the Board of Health a 3-inch soil pipe may be used for one set of bath fixtures (viz., 1 water-closet, 1 basin, 1 bathtub) where it is not practicable to use 4-inch pipe.

### MATERIAL OF DRAINAGE SYSTEM.

**SECTION 5.** Drain, soil, waste and vent pipes and connections, which collectively make up the drainage system within the building, shall be constructed of the following material: extra heavy cast iron, galvanized wrought iron, lead and annealed brass pipe not less than No. 13 Stubbs Gauge. Cast-iron pipe and fittings shall be of a grade known to the trade as extra heavy, and may be plain or coated with tar or asphaltum. If pipe is coated, it must bear the manufacturer's stamp of test before coating; if plain, it must be painted on inside with red and white lead before putting in place, to prevent rust scale. All joints in cast-iron pipe shall be made

with oakum and molten lead, run full, and caulked gas and water tight.

*Sizes and Weights, Extra Heavy Cast-iron Pipe.*

	Pounds per foot.
2 inches, . . . . .	5½
3 inches, . . . . .	9½
4 inches, . . . . .	13
5 inches, . . . . .	17
6 inches, . . . . .	20
8 inches, . . . . .	33½
10 inches, . . . . .	45

When wrought-iron pipe is used it must be galvanized and of standard weight. It shall be used above ground only, and when used for waste or drip shall have galvanized cast-iron recessed drainage fittings; where used for vents, ordinary galvanized fittings may be used. Brass pipe for soil, waste and vent pipe shall be annealed, seamless drawn brass tubing, of not less than No. 13 Stubbs Gauge. Brass fittings used for waste or drip shall be recessed, but ordinary fittings may be used on vents. Brass and galvanized-iron pipe and fittings shall be connected together by sharp tapered threads, with red lead or graphite. No slip joints, unions or flanges shall be used on threaded wastes or vents, except that slip joints may be used on house side of trap to connect fixtures.

Lead pipe shall be of the following diameters and weights:—

Diameter (Inches).	Weight (Pounds per Foot).	Maximum Length allowed (Feet).	Diameter (Inches).	Weight (Pounds per Foot).	Maximum Length allowed (Feet).
1¼	2½	5 <sup>1</sup>	3	6	3
1½	3	5 <sup>1</sup>	4	8	2
2	4	5			

<sup>1</sup> Unless exposed.

Lead bends and traps shall correspond to the above weights.

Brass sleeves for connecting lead and cast-iron pipes shall be extra heavy, at least  $\frac{1}{8}$  of an inch thick and made of cast red metal. Brass solder nipples for connecting lead and threaded pipes shall be either cast red metal or seamless drawn tubing, size and weight corresponding with pipe to be connected. In connecting lead pipe together, or to brass caulking or soldering nipples, full-sized wiped joints shall be used. Cleanouts, plugs, stoppers or any other fittings used in drainage system shall correspond in weight and material with above description.

#### FASTENING PIPES.

SECTION 6. Drain, soil, waste and vent pipes shall be supported every 5 feet on horizontal runs, and at least once to each story on vertical lines; horizontal runs by supports under, or hung from overhead by iron hangers; vertical stacks by pipe rest at floor, or clamps, drive hooks or hangers to adjacent walls.

#### TRAPS.

SECTION 7. The waste pipe of every independent fixture shall be furnished with a separate trap, which shall be placed as near as practicable to the fixture which it serves. A sink and set of three wash trays, or bathtub and basin when they adjoin, may be connected to the house drain through one 4-inch round trap when outlets are not over 3 feet 6 inches apart; but the outlet of each fixture shall enter the trap separately. Four washbowls or sinks in a continuous line may be connected to the house drain through one 4-inch round trap. Lead bends for water-closets or slop sinks shall not be used to connect waste from other fixtures. Earthen-ware traps shall have heavy brass floor plates soldered to the lead bends and bolted to the trap flange, and the joint made of red or white lead putty. All traps shall be of open

form, and traps depending upon concealed partitions to retain their seal will not be approved, except for earthen-ware fixtures, where the trap seal is plainly visible. Trap screws for cleaning purposes shall be placed in all metal traps, and where such traps are placed in connection with fixtures, they shall be so installed that the water seal will protect the trap screw from sewer air.

#### SPECIAL TRAPS.

SECTION 8. Every building in which gasoline, naphtha or other inflammable compounds are used for business purposes shall be provided with a special trap or separator, so designed as to prevent the passage of oils into the sewer, and shall be ventilated with a separate pipe to a point 3 feet above the roof. The waste of every washstand for vehicles shall be provided with catch basin so designed that sand cannot pass into the drain. The waste pipe from the sink of every hotel, restaurant or other public cooking establishment shall be provided with a grease trap. The waste from every fixture, except refrigerators and other receptacles in which provisions are stored, shall be connected directly with the drain pipe.

#### STABLES, GARAGES, LABORATORIES, ETC.

SECTION 9. Drainage of stalls, stable fixtures, garages and laboratories shall be installed in accordance with plans approved by the Board of Health.

#### CLEANOUTS.

SECTION 10. Where drain enters building a Y shall be placed just inside of wall. The branch of Y shall be used for extending drain, and a cleanout if above ground, or cast brass stopper at least  $\frac{1}{8}$  of an inch thick if below ground, shall be placed at end of Y. Cleanouts shall be placed at changes in direction and at

foot of vertical stack, or other points necessary to make all portions of horizontal drainage system accessible for cleaning purposes.

### VENTS, BACK AIR PIPES, ETC.

SECTION 11. Traps shall be protected from siphonage and back pressure by special iron or brass air pipes of same size as waste; continuous system of venting shall be used, and back air pipe shall not be connected to the trap or branched into the waste pipe except where a continuous vent is not practicable. Traps of S form shall not have more than 24 inches of waste pipe from trap to vent. Round traps not less than 9 inches long and 4 inches in diameter may be placed 5 feet from vent pipe. Two water-closets or two other traps on the same level, with not more than 2 feet of waste pipe, and which connect with soil or waste pipe not more than 18 inches below the top water line of the trap, shall not require other vent than the continuation of the soil or waste pipe full size for its whole length. Lead air pipes may be used for short connections only, and where exposed to view.

*Schedule of Back Air Pipes and Vents for Fixtures.*

FIXTURES.	Size of Pipe (Inches).	Greatest Length allowed (Feet).	Maximum Number of Fixtures.
Baths, basins, sinks, urinals,	$1\frac{1}{2}$	30	3
	2	70	9
	3	70	21
Water-closets, or slop sinks, .	2	35	3
	3	70	9

Two or more air pipes may be connected together, but such connection must be made above top of fixture. All vent pipes shall be at least 4 inches in diameter where they pass through

the roof. Vent lines shall be connected to soil, waste or drain pipe at bottom with Y and long angle bend, and all air pipes shall be so graded that no condensation will remain in pipes. In case of batteries of water-closets, the special air pipe from each trap may be omitted, provided the soil or waste pipe, undiminished in size, is continued to a point above the roof, or revented into the main system above all fixtures.

### TESTING AND INSPECTION.

SECTION 12. Pipes or other fixtures shall not be covered or concealed from view until approved by the Board of Health. The work shall be examined and tested within two working days after notice that it is ready for inspection. Plumbing shall not be used unless, when roughed in, the wastes, vents, back air pipe and traps are first tested, in the presence of the inspector, by water or sufficient air pressure.

### WATER-CLOSETS.

SECTION 13. Every building used for habitation shall have such number of water-closets as the Board of Health may require, but in no case less than one for each tenement. Every building where persons are employed shall have at least one water-closet for every 15 persons employed therein; and in any building where persons of both sexes are employed, separate accommodations shall be furnished for both men and women. Every enclosure containing one or more water-closets shall be provided with adequate ventilation to the outer air, either by window or suitable light shaft. No water-closet shall be set in any room or apartment that has not a window having an area of at least 3 square feet opening directly to the external air. Water-closets shall be supplied with water from tank above, or by flush valves set just above

the seat, which in turn are supplied from tank or other adequate supply, capable of delivering five gallons of water to the closet in ten seconds. In all cases the flush pipe shall not be less than  $1\frac{1}{4}$  inches in diameter. Tanks shall be lined with not less than 12-ounce soft-rolled tinned copper, with lining arranged to bring seams in corners, and these seams shall be covered with solder sufficient to measure at least  $\frac{1}{2}$  inch across surface of the solder. Where local vents are used they shall connect with heated flue when possible, must be not less than 2 inches for each fixture, and for a distance of 3 feet from fixture shall be 16-ounce copper. Connection to flue shall be made by wrought or cast-iron pipe at least 3 feet long; other piping may be of galvanized iron.

#### STORM AND SURFACE WATER.

SECTION 14. Rain-water leaders shall not be connected to sewage stack at any point above basement or cellar ceiling, and shall be trapped. Wherever a surface drain is installed in a cellar or basement, it shall be provided with a deep seal trap and back-water valve. Drain pipes from fixtures subject to back flow from sewer shall be supplied with back-water valves.

#### REFRIGERATOR WASTE AND DRIP PIPE.

SECTION 15. All drip or overflow pipes shall be extended to some place in open sight, and in no case shall any such pipe be connected directly with the drain pipe. No waste pipe from a refrigerator or other receptacle in which provisions are stored shall be connected directly with drain or waste pipe. Refrigerator wastes connecting with two or more stories shall be supplied with a trap on the branch for each floor, and extended through the roof.

# STEAM EXHAUSTS, DRIPS, ETC.

SECTION 16. No steam exhaust, drip or blow-off pipe shall be connected to drainage system except through a condensing tank of sufficient capacity to liquefy all steam that may be received, and discharge same on sewer side without vapor. Vapor pipe shall be carried from tank to a point 3 feet above the roof.

## NOTICE.

---

The State Examiners of Plumbers have to do with the licensing of plumbers only, the supervision of plumbers and plumbing being entirely in the hands of local authorities.

---

## IMPORTANT.

---

Until further notice this list in book form will not be published yearly. In future, additional names, changes of address and information relative to other changes that may occur throughout the year only will be published and distributed.

# LAWS RELATING TO THE BUSINESS OF PLUMBING.

---

## REVISED LAWS, CHAPTER 103.

### OF THE SUPERVISION OF PLUMBING.

SECTION 1. No person, firm or corporation shall engage in or work at the business of plumbing, either as a master or employing plumber or as a journeyman plumber, unless he or it has received a license or certificate therefor in accordance with the provisions of this chapter. The words "practical plumber", as used in this chapter, shall mean a person who has learned the business of plumbing by working for at least two years as an apprentice or under a verbal agreement for instruction, and who has then worked for at least one year as a first class journeyman plumber. The word "journeyman", as used in this chapter, shall mean a person who himself does any work in plumbing which is by law, ordinance, by-law, rule or regulation subject to inspection.

SECTION 2. Any person who, not having been engaged in or working at the business of plumbing prior to the tenth day of July in the year eighteen hundred and ninety-three, desires to engage in or work at said business, either as a master or employing plumber or as a journeyman plumber, shall apply to the board of health of the city or town in which he intends to engage in or work at said business, or to the inspector of buildings in cities or towns in which such inspector has control of the enforcement of the regulations relative to plumbing, and shall, at a time and place designated by the board of examiners provided for in the following section, to whom such applications shall be referred, be examined as to his qualifications

by any inspectors other than those provided for by this chapter shall not be a compliance with the provisions hereof.

SECTION 6. No inspector of plumbing shall inspect or approve any plumbing work done by himself, or by any person by whom he is employed, or who is employed by or with him, but in a city or town which is subject to the provisions of this chapter the inspector of buildings or the board of health, as provided in the preceding section, shall appoint an additional inspector of plumbing, in the same manner and subject to the same qualifications as the regular inspector of plumbing, who shall inspect, in the manner prescribed in this chapter, plumbing done by the regular inspector or by any person by whom he is employed, or who is employed by or with him. Said additional inspector may act in case of the absence or inability of the regular inspector, and shall receive for his services the same compensation as the regular inspector for a like duty. The provisions of this section shall not apply to any city or town which has established or shall establish an annual salary for the inspector of plumbing, and in any such city or town, the inspector of plumbing shall not engage in or work at the business of plumbing.

SECTION 7. Each city, except Boston, the city council of which accepts the provisions of this section or has accepted the corresponding provisions of earlier laws and each town of five thousand inhabitants or more, or which has a system of water supply or sewerage, shall by ordinance or by-law prescribe regulations for the materials, construction, alteration and inspection of all pipes, tanks, faucets, valves or other fixtures by and through which waste water or sewage is used and carried; and shall provide that such pipes, tanks, faucets, valves or other fixtures shall not be placed in any building in such city or town, except in accordance with plans approved by the inspector of buildings, if he has control as provided in section

five, or if he has not such control, by the board of health; and shall further provide that no plumbing shall be done, except to repair leaks, without a permit first being issued therefor, upon such terms and conditions as such cities or towns shall prescribe. The provisions of this section shall not prevent boards of health from making such regulations relative to plumbing and house drainage authorized by law prior to the sixth day of July in the year eighteen hundred and ninety-four as are not inconsistent with any ordinance or by-law made under the authority of this section.

SECTION 8. Whoever violates any provision of this chapter or any ordinance, by-law or regulation made hereunder shall be punished by a fine of not more than fifty dollars for each offence, and, if he holds a license under the provisions of this chapter, his license may be revoked by the inspector or board which issued it. If the offence was committed in a city or town other than that in which he received his license, the person or board authorized to grant licenses to plumbers in such city or town may forbid him to engage in or work at the business of plumbing for not more than one year in such city or town. If a registered plumber to whom a certificate has been issued violates any provision of this chapter or any ordinance, by-law or regulation made hereunder, either the inspector of buildings or board of health which issued his certificate, or the person or board authorized to grant licenses to plumbers of the city or town in which the offence was committed, may forbid him to engage in or work at the business of plumbing in such city or town for not more than one year. Whoever engages in or works at the business of plumbing in any city or town in which he has been forbidden so to do under the provisions of this section shall be punished by a fine of not more than one hundred dollars for each offence. Any city or town subject to the provisions of this chapter which refuses to comply with any of its pro-

visions shall forfeit fifty dollars to the use of the commonwealth for each month during which such neglect continues.

SECTION 9. The provisions of this chapter shall apply to all persons learning the business of plumbing when they are sent out to do the work of a journeyman plumber.

SECTION 10. Any person who held an appointment as inspector of plumbing on the sixth day of July in the year eighteen hundred and ninety-four may retain his position, and, without further examination, be deemed to have been appointed under the provisions of this chapter.

SECTION 11. Inspectors of buildings and boards of health may expend such portion of the fees collected by them under the provisions of this chapter as is necessary to properly perform the duties imposed thereby, and they shall annually, before the first day of June, make a full report in detail to their respective cities or towns of all their proceedings during the year under the provisions of this chapter.

SECTION 12. The provisions of this chapter shall not be operative in any town until accepted by a vote of the inhabitants thereof, nor in such portion of the territory of a city lying outside of the limits of the water supply thereof or unconnected with a common sewer, as the city council votes to exempt from its operation.

---

ACTS OF 1909, CHAPTER 536.

AN ACT RELATIVE TO THE SUPERVISION OF THE  
BUSINESS OF PLUMBING.

*Be it enacted, etc., as follows:*

SECTION 1. Within thirty days after the passage of this act, the state board of health shall appoint three examiners of plumbers. The first shall be a practical plumber of at least five years' continuous practical experience. The second shall be a sanitary expert, and the

third shall have such qualifications as may be required by the state board of health. The three persons so appointed shall be known as the state examiners of plumbers, and their terms of office shall be as follows: the first examiner shall be appointed for a term of three years; the second examiner for a term of two years; the third examiner for a term of one year; and all subsequent appointments, except the filling of vacancies shall be for terms of three years each. Appointments to fill vacancies shall be for the unexpired terms. The first examiner shall act as clerk. The compensation of the first examiner shall be two thousand dollars per annum or such other sum as may be fixed by the state board of health, subject to the approval of the governor and council. The compensation of each of the other examiners shall not exceed five dollars a day for every day of actual service, nor more than three hundred and fifty dollars in any one year. The compensation of the state examiners of plumbers, together with the travelling and other necessary expenses of the clerk shall, when approved by the chairman of the state board of health and by the governor and council, be paid from the treasury of the commonwealth.

SECTION 2. The state examiners of plumbers may make such rules as they deem necessary for the proper performance of their duties, which rules shall take effect when approved by the state board of health. They shall examine, in the manner prescribed by section four of chapter one hundred and three of the Revised Laws, all persons desiring to engage in the business of plumbing as master plumbers, or to work at the business of plumbing as journeymen plumbers. [SECTION 4, CHAPTER 103, REVISED LAWS. "The board shall examine each applicant as to his practical knowledge of plumbing, house drainage and plumbing ventilation, shall subject him to a satisfactory practical test and if satisfied of his competence shall . . . issue to him a license authorizing

him to engage in or work at the business of plumbing, either as a master or employing plumber or as a journeyman plumber.”] They shall hold frequent examinations in the city of Boston. They shall also, twice in each year, hold examinations at five other convenient points within the commonwealth. Public notice shall be given of all examinations. Application for examination shall be made in the handwriting of the applicant, and he shall be notified by the state examiners of plumbers as to the time and place of examination.<sup>1</sup> The state examiners of plumbers may, without the payment of any fee therefor, issue a probationary license, good for a term of six months, to one who, having worked either as an apprentice, or under a verbal agreement for instruction, for not less than three years, presents an application therefor, bearing a written indorsement signed by his employer in which the employer agrees to be responsible for all work done under the license and to have the apprentice present himself for examination as a journeyman plumber at the expiration of the term for which the license was issued.

SECTION 3. It shall be the duty of the board of health of every city and town, or of the inspector of buildings of every city and town in which the inspector of buildings has control of the enforcement of the regulations relative to plumbing, to furnish the state examiners of plumbers within three months from the passage of this act with a correct list of the names and addresses of all registered or licensed plumbers within such city or town. All persons already holding legal certificates of registration may, within six months from the passage of this act, register anew with the state examiners of plumbers. A license heretofore issued to a person after an examination shall continue in effect for the term for which it was issued, but may be exchanged, without payment of an addi-

---

<sup>1</sup> For rules for examination see p. 20.

tional fee, for a license issued by the state examiners of plumbers. Persons who have worked as journeymen plumbers, and who are registered as master plumbers under the provisions of chapter four hundred and fifty-five of the acts of the year eighteen hundred and ninety-four, shall be granted certificates of registration as journeymen plumbers; and persons who have passed the examination for, and who hold master plumber's licenses, shall without further examination be granted journeymen plumbers' licenses by the state examiners of plumbers. The fees for registration, and for the license of a master plumber, shall be two dollars each. The fees for examination, and for renewals shall be fifty cents each. The fees for the registration and for the license of a journeyman plumber shall be fifty cents each. Fees received by the said examiners shall be paid monthly by their clerk into the treasury of the commonwealth. The report of the state examiners of plumbers shall be a part of the annual report of the state board of health.

SECTION 4. Certificates and licenses issued by the state examiners of plumbers shall be valid and have effect throughout the commonwealth. The said examiners shall from time to time forward to the board of health of each city and town, or to the inspector of buildings of each city and town in which the inspector of buildings has control of the enforcement of the regulations relative to plumbing, a list of the names and addresses of all persons within such city or town who have been granted plumber's licenses or certificates. Licenses shall be issued for the term of one year, and shall be renewable on or before the first day of May in each year upon the payment of the required fee. Each holder of a master plumber's certificate or of a license shall register his name and business address with the board of health of the city or town where the holder thereof desires to engage in the business of plumbing as a master plumber; except that in a city or town where

the inspector of buildings has control of the enforcement of the regulations relative to plumbing, such holder shall register his name and address with the inspector of buildings. The said examiners may, after notice and a hearing, revoke the license of any person who, after having been convicted of a like offence, has violated any regulation relative to plumbing. If the holder of a certificate of registration or a license has, in the opinion of a board of health of a city or town or of the inspector of buildings of a city or town in which such inspector has control of the enforcement of the regulations relative to plumbing, violated any statute, ordinance, by-law, rule or regulation relative to plumbing, the board of health or the inspector of buildings, if said inspector has control of the enforcement of regulations relative to plumbing, of the city or town where such violation is deemed to have been committed, may request the state examiners of plumbers to forbid such holder to engage in the business of plumbing as a master plumber, or to work at the business of plumbing as a journeyman plumber within such city or town, for a term not exceeding thirty days. After notice and after hearing both parties, the state examiners of plumbers shall serve notice of their decision on each of the parties interested. No person shall do any work in plumbing which is subject to inspection, unless he has been registered or licensed as a journeyman plumber in accordance with the provisions of this act, and his certificate or license shall be exhibited whenever required by the inspector of plumbing. Every master plumber's certificate or license shall at all times be displayed conspicuously within his place of business.

SECTION 5. Upon petition of the board of health of any town which has not accepted the provisions of chapter one hundred and three of the Revised Laws, the said examiners shall formulate rules relative to the construction, alteration, repair and inspection of all plumbing

work within such town, which rules, when approved by the state board of health and accepted by the board of health of such town and published once a week for three consecutive weeks in some newspaper published in said town, if any, otherwise in a newspaper published in the county in which said town is situated, shall thereafter have the force and effect of law. Rules formulated as provided in this section may from time to time be revised upon a similar petition of the board of health of such town. The board of health of such town shall, within thirty days after rules formulated as provided herein have taken effect, appoint an inspector of plumbing having such qualifications and duties as are specified or referred to in sections five and six of chapter one hundred and three of the Revised Laws. Such inspector shall hold office for the term of three years, unless sooner removed for cause, and after a hearing. He shall receive such compensation as may be determined by the board appointing him, subject to the approval of the selectmen, which compensation shall be paid from the treasury of the town. Appeal from a decision of any inspector appointed under authority of this section may be made to the state examiners of plumbers within ten days from the date of notice of such decision. The appellant shall deposit with the state examiners of plumbers the sum of five dollars, and if the appeal is sustained, the deposit shall be refunded to him. If the appeal is not sustained, the deposit shall be forfeited and shall be paid by the clerk of the state examiners of plumbers into the treasury of the commonwealth. The decision of said examiners shall be subject to the approval of the chairman of the state board of health, and a copy of the decision shall be served on each of the persons interested. All decisions of said examiners shall be subject to review by the superior court.

SECTION 6. Two or more towns may unite and form an inspection district, the expense at-

tending the same to be paid on such basis as may be agreed upon by the boards of health of the towns forming such district.

SECTION 7. Inspectors of plumbing now holding office and in receipt of an annual salary shall be deemed to have been appointed under the rules of the civil service commission relative to classification, and such inspectors may perform such other inspection service as may be required by the board of health or by the inspector of buildings having control of the enforcement of regulations relative to plumbing. All inspectors hereafter appointed to like positions shall be certified from the classified lists of the civil service commission.

SECTION 8. Cities and towns that have continued to operate under the provisions of chapter four hundred and seventy-seven of the acts of the year eighteen hundred and ninety-three or of acts in amendment thereof, shall be deemed to have accepted the provisions of chapter one hundred and three of the Revised Laws.

SECTION 9. The words "master or employing plumber", as used in chapter one hundred and three of the Revised Laws, shall be deemed to mean a plumber having a regular place of business and who himself, or by journeymen plumbers in his employ, performs plumbing work. The word "corporation", as used in said chapter one hundred and three, shall be deemed to mean a corporation formed for the purpose of engaging in the business of plumbing.

SECTION 10. Every person engaging in the business of plumbing as a master plumber, or working at the business of plumbing as a journeyman plumber, not having been registered or licensed as herein provided; and every person engaging in or working at the business of plumbing in a city or town where he has been forbidden so to do under the provisions of section four of this act; and every person violating any provision of this act or any rule or regulation made thereunder shall be punished

by a fine not exceeding fifty dollars for each offence.

SECTION 11. Upon the appointment of the state examiners of plumbers, the authority of the boards of examiners of plumbers appointed under the provisions of chapter one hundred and three of the Revised Laws shall cease, and said boards shall thereupon be abolished.

SECTION 12. All acts and parts of acts inconsistent herewith are hereby repealed. The provisions of this act in so far as they are the same as the provisions of chapter one hundred and three of the Revised Laws shall be construed as a continuation of said chapter and not as new enactments. [*Approved June 19, 1909.*]

---

ACTS OF 1910, CHAPTER 597.

AN ACT RELATIVE TO THE SUPERVISION OF THE  
BUSINESS OF PLUMBING.

*Be it enacted, etc., as follows:*

SECTION 1. The compensation of the state examiners of plumbers, together with the travelling and other necessary expenses of the clerk and the travelling and other necessary expenses of the other two state examiners to an amount not exceeding in the aggregate five hundred dollars annually for such expenses of said other two state examiners, shall, when approved by the chairman of the state board of health and by the governor and council, be paid from the treasury of the commonwealth.

SECTION 2. Certificates of registration in accordance with the provisions of section two of chapter four hundred and fifty-five of the acts of the year eighteen hundred and ninety-four shall be issued to all persons who have been legally registered under the provisions of said chapter, provided that such persons, after notice, register anew with the state examiners of plumbers on or before the first day of September, nineteen hundred and ten.

SECTION 3. So much of chapter five hundred and thirty-six of the acts of the year nineteen

hundred and nine as is inconsistent herewith is hereby repealed.

SECTION 4. This act shall take effect upon its passage. [*Approved June 9, 1910.*]

---

ACTS OF 1912, CHAPTER 518.

AN ACT RELATIVE TO THE REGISTRATION OF PLUMBERS.

*Be it enacted, etc., as follows:*

SECTION 1. Certificates of registration in accordance with the provisions of chapter one hundred and three of the Revised Laws and of chapter five hundred and thirty-six of the acts of the year nineteen hundred and nine, shall be issued to all persons who registered in accordance with, and to whom certificates were issued under, the provisions of either of said chapters, or under the provisions of chapter four hundred and fifty-five of the acts of the year eighteen hundred and ninety-four: *provided*, that such persons, after receipt of actual notice of the provisions of this act by registered mail or otherwise, shall register anew with the state examiners of plumbers within sixty days after the receipt of such notice.

SECTION 2. So much of chapter five hundred and thirty-six of the acts of the year nineteen hundred and nine and of chapter five hundred and ninety-seven of the acts of the year nineteen hundred and ten as is inconsistent herewith is hereby repealed.

SECTION 3. This act shall take effect upon its passage. [*Approved April 18, 1912.*]

---

ACTS OF 1914, CHAPTER 287.

AN ACT RELATIVE TO THE BUSINESS OF PLUMBING.

*Be it enacted, etc., as follows:*

Chapter five hundred and thirty-six of the acts of the year nineteen hundred and nine is hereby amended by striking out section ten and inserting in place thereof the following new sec-

tion:— *Section 10.* Every person engaging in the business of plumbing as a master plumber, or working at the business of plumbing as a journeyman plumber, not having been registered or licensed as herein provided; and every person engaging in or working at the business of plumbing in a city or town where he has been forbidden so to do under the provisions of section four of this act; and every person engaged in the business of plumbing as a master plumber or employing plumber who engages or employs any person to work as a journeyman plumber who has not been registered or licensed as provided by this act; and every person violating any provision of this act or any rule or regulation made hereunder, shall be punished by a fine not exceeding fifty dollars for each offence. *[Approved April 2, 1914.]*

---

GENERAL ACTS OF 1919, CHAPTER 317.

AN ACT RELATIVE TO THE GRANTING OF PLUMBERS' LICENSES TO CERTAIN SOLDIERS AND SAILORS.

*Whereas*, Justice requires that the recognition of the state's obligation to her soldiers and sailors, herein contained, be accorded without delay, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

*Be it enacted, etc., as follows:*

SECTION 1. The state examiners of plumbers are hereby directed to grant a credit of five per cent to the examination standing of each applicant who has served in the army or navy of the United States in time of war and has been honorably discharged or released from active duty. This act shall apply to all applicants for examination by them who have taken the examination subsequently to the first day of January in the year nineteen hundred and nineteen and before the date on which this act takes effect, and to all

applicants whose applications are hereafter filed within one year of their discharge or release as aforesaid.

SECTION 2. This act shall take effect upon its passage. [*Approved July 16, 1919.*]

---

## RULES FOR EXAMINATION.

---

Three years' service in mechanical department of plumbing business will be required before applicants are eligible for examination for license.

Examinations shall consist of tests in written, oral and practical plumbing. Two hours will be the time limit on written examinations.

All applications for examinations shall be in the hands of clerk one week before day of examination.

Candidates for license must receive 70 per cent. on examination to have license granted.

Candidates failing to reach the required 70 per cent. will not be re-examined for three months and those receiving less than 50 per cent. will not be re-examined for a period of six months.

Applicants for a master plumbers' license must have had three years' experience as a journeyman or practising plumber before they can be considered eligible for examination.

*Notice will be sent to applicants for license when and where examination will be held, and only those so notified will be examined on that day.*

JAMES C. COFFEY,  
CHARLES R. FELTON,  
DAVID CRAIG, *Clerk*,  
*State Examiners of Plumbers.*

For application blank or other information apply to office of clerk, 68 Broad Street, Boston, Mass.

(Stamps will not be received in payment for licenses. Please send cash, money order or check.)

## **PLUMBING RULES**

**FORMULATED BY THE**

### **State Examiners of Plumbers**

**AS REQUIRED BY SECTION 5, CHAPTER 536, ACTS OF 1909.**

**JANUARY, 1911.**

---

#### **REGISTRATION.**

SECTION 1. Ninety days after acceptance of the following plumbing regulations all persons who desire to engage in, carry on or work at the business of plumbing within this jurisdiction shall be registered by the State Examiners of Plumbers, in accordance with the provisions of chapter 536, Acts of 1909.

#### **PERMITS.**

SECTION 2. Upon application of a registered master plumber, on form furnished by the Board of Health, said Board shall grant written permit to do certain plumbing described therein, when in conformity with the law. Drawings of proposed work shall be filed if required. Permits may be recalled by the Board of Health if conditions are violated. Permits for all plumbing, except repair of leaks, must be in the hands of the plumber before beginning work.

#### **SEWAGE DISPOSAL.**

SECTION 3. The plumbing of each building shall have an independent connection to public sewer or private drain outside of building, unless, in the opinion of the authorities, a separate connection is not feasible. If sewer is not available, a septic tank or cesspool shall be provided.

## DRAINAGE SYSTEM.

SECTION 4. The drain from a point 10 feet outwardly from inside of wall, and not less than 4 inches in diameter, shall continue with at least  $\frac{1}{4}$ -inch rise per foot to and through roof to a height of at least 8 feet where roof is used for clothes-drying or other purposes, at least 2 feet in any case, and 1 foot above any window or opening within 15 feet. The use of running trap on drain at entrance to building is optional. Connections and changes in direction shall be made with long angle and long sweep bends and Y branches. Soil and waste pipes shall not have less than the following diameters: —

	Inches.
Minimum branch waste, . . . . .	1 $\frac{1}{4}$
Branch waste for urinals, . . . . .	1 $\frac{1}{2}$
Branch waste for sinks, . . . . .	1 $\frac{1}{2}$
Branch waste for wash trays, . . . . .	1 $\frac{1}{2}$
Main waste, . . . . .	2
Main waste for sinks, five floors or more, . . . . .	3
Soil pipe, . . . . .	4

Except that by permission of the Board of Health a 3-inch soil pipe may be used for one set of bath fixtures (viz., 1 water-closet, 1 basin, 1 bathtub) where it is not practicable to use 4-inch pipe.

## MATERIAL OF DRAINAGE SYSTEM.

SECTION 5. Drain, soil, waste and vent pipes and connections, which collectively make up the drainage system within the building, shall be constructed of the following material: extra heavy cast iron, galvanized wrought iron, lead and annealed brass pipe not less than No. 13 Stubbs Gauge. Cast-iron pipe and fittings shall be of a grade known to the trade as extra heavy, and may be plain or coated with tar or asphaltum. If pipe is coated, it must bear the manufacturer's stamp of test before coating; if plain, it must be painted on inside with red and white lead before putting in place, to prevent rust scale. All joints in cast-iron pipe shall be made

with oakum and molten lead, run full, and caulked gas and water tight.

*Sizes and Weights, Extra Heavy Cast-iron Pipe.*

	Pounds per foot.
2 inches, . . . . .	5½
3 inches, . . . . .	9½
4 inches, . . . . .	13
5 inches, . . . . .	17
6 inches, . . . . .	20
8 inches, . . . . .	33½
10 inches, . . . . .	45

When wrought-iron pipe is used it must be galvanized and of standard weight. It shall be used above ground only, and when used for waste or drip shall have galvanized cast-iron recessed drainage fittings; where used for vents, ordinary galvanized fittings may be used. Brass pipe for soil, waste and vent pipe shall be annealed, seamless drawn brass tubing, of not less than No. 13 Stubbs Gauge. Brass fittings used for waste or drip shall be recessed, but ordinary fittings may be used on vents. Brass and galvanized iron pipe and fittings shall be connected together by sharp tapered threads, with red lead or graphite. No slip joints, unions or flanges shall be used on threaded wastes or vents, except that slip joints may be used on house side of trap to connect fixtures.

Lead pipe shall be of the following diameters and weights: —

Diam- eter (Inches).	Weight (Pounds per Foot).	Max- imum Length allowed (Feet).	Diam- eter (Inches).	Weight (Pounds per Foot).	Max- imum Length allowed (Feet).
1¼	2½	5 <sup>1</sup>	3	6	3
1½	3	5 <sup>1</sup>	4	8	2
2	4	5			

<sup>1</sup> Unless exposed.

Lead bends and traps shall correspond to the above weights.

Brass sleeves for connecting lead and cast-iron pipes shall be extra heavy, at least  $\frac{1}{8}$  of an inch thick and made of cast red metal. Brass solder nipples for connecting lead and threaded pipes shall be either cast red metal or seamless drawn tubing, size and weight corresponding with pipe to be connected. In connecting lead pipe together, or to brass caulking or soldering nipples, full-sized wiped joints shall be used. Cleanouts, plugs, stoppers or any other fittings used in drainage system shall correspond in weight and material with above description.

#### FASTENING PIPES.

SECTION 6. Drain, soil, waste and vent pipes shall be supported every 5 feet on horizontal runs, and at least once to each story on vertical lines; horizontal runs by supports under, or hung from overhead by iron hangers; vertical stacks by pipe rest at floor, or clamps, drive hooks or hangers to adjacent walls.

#### TRAPS.

SECTION 7. The waste pipe of every independent fixture shall be furnished with a separate trap, which shall be placed as near as practicable to the fixture which it serves. A sink and set of three wash trays, or bathtub and basin when they adjoin, may be connected to the house drain through one 4-inch round trap when outlets are not over 3 feet 6 inches apart; but the outlet of each fixture shall enter the trap separately. Four washbowls or sinks in a continuous line may be connected to the house drain through one 4-inch round trap. Lead bends for water-closets or slop sinks shall not be used to connect waste from other fixtures. Earthen-ware traps shall have heavy brass floor plates soldered to the lead bends and bolted to the trap flange, and the joint made of red or white lead putty. All traps shall be of open

form, and traps depending upon concealed partitions to retain their seal will not be approved, except for earthen-ware fixtures, where the trap seal is plainly visible. Trap screws for cleaning purposes shall be placed in all metal traps, and where such traps are placed in connection with fixtures, they shall be so installed that the water seal will protect the trap screw from sewer air.

#### SPECIAL TRAPS.

SECTION 8. Every building in which gasoline, naphtha or other inflammable compounds are used for business purposes shall be provided with a special trap or separator, so designed as to prevent the passage of oils into the sewer, and shall be ventilated with a separate pipe to a point 3 feet above the roof. The waste of every washstand for vehicles shall be provided with catch basin so designed that sand cannot pass into the drain. The waste pipe from the sink of every hotel, restaurant or other public cooking establishment shall be provided with a grease trap. The waste from every fixture, except refrigerators and other receptacles in which provisions are stored, shall be connected directly with the drain pipe.

#### STABLES, GARAGES, LABORATORIES, ETC.

SECTION 9. Drainage of stalls, stable fixtures, garages and laboratories shall be installed in accordance with plans approved by the Board of Health.

#### CLEANOUTS.

SECTION 10. Where drain enters building a Y shall be placed just inside of wall. The branch of Y shall be used for extending drain, and a cleanout if above ground, or cast brass stopper at least  $\frac{1}{8}$  of an inch thick if below ground, shall be placed at end of Y. Cleanouts shall be placed at changes in direction and at

foot of vertical stack, or other points necessary to make all portions of horizontal drainage system accessible for cleaning purposes.

### VENTS, BACK AIR PIPES, ETC.

SECTION 11. Traps shall be protected from siphonage and back pressure by special iron or brass air pipes of same size as waste; continuous system of venting shall be used, and back air pipe shall not be connected to the trap or branched into the waste pipe except where a continuous vent is not practicable. Traps of S form shall not have more than 24 inches of waste pipe from trap to vent. Round traps not less than 9 inches long and 4 inches in diameter may be placed 5 feet from vent pipe. Two water-closets or two other traps on the same level, with not more than 2 feet of waste pipe, and which connect with soil or waste pipe not more than 18 inches below the top water line of the trap, shall not require other vent than the continuation of the soil or waste pipe full size for its whole length. Lead air pipes may be used for short connections only, and where exposed to view.

*Schedule of Back Air Pipes and Vents for Fixtures.*

FIXTURES.	Size of Pipe (Inches).	Greatest Length allowed (Feet).	Maximum Number of Fixtures.
Baths, basins, sinks, urinals,	{ 1½	30	3
	{ 2	70	9
	{ 3	70	21
Water-closets, or slop sinks, .	{ 2	35	3
	{ 3	70	9

Two or more air pipes may be connected together, but such connection must be made above top of fixture. All vent pipes shall be at least

4 inches in diameter where they pass through the roof. Vent lines shall be connected to soil, waste or drain pipe at bottom with Y and long angle bend, and all air pipes shall be so graded that no condensation will remain in pipes. In case of batteries of water-closets, the special air pipe from each trap may be omitted, provided the soil or waste pipe, undiminished in size, is continued to a point above the roof, or revented into the main system above all fixtures.

### TESTING AND INSPECTION.

SECTION 12. Pipes or other fixtures shall not be covered or concealed from view until approved by the Board of Health. The work shall be examined and tested within two working days after notice that it is ready for inspection. Plumbing shall not be used unless, when roughed in, the wastes, vents, back air pipe and traps are first tested, in the presence of the inspector, by water or sufficient air pressure.

### WATER-CLOSETS.

SECTION 13. Every building used for habitation shall have such number of water-closets as the Board of Health may require, but in no case less than one for each tenement. Every building where persons are employed shall have at least one water-closet for every 15 persons employed therein; and in any building where persons of both sexes are employed, separate accommodations shall be furnished for both men and women. Every enclosure containing one or more water-closets shall be provided with adequate ventilation to the outer air, either by window or suitable light shaft. No water-closet shall be set in any room or apartment that has not a window having an area of at least 3 square feet opening directly to the external air. Water-closets shall be supplied with water from tank above, or by flush valves set just above

the seat, which in turn are supplied from tank or other adequate supply, capable of delivering five gallons of water to the closet in ten seconds. In all cases the flush pipe shall not be less than  $1\frac{1}{4}$  inches in diameter. Tanks shall be lined with not less than 12-ounce soft-rolled tinned copper, with lining arranged to bring seams in corners, and these seams shall be covered with solder sufficient to measure at least  $\frac{1}{2}$  inch across surface of the solder. Where local vents are used they shall connect with heated flue when possible, must be not less than 2 inches for each fixture, and for a distance of 3 feet from fixture shall be 16-ounce copper. Connection to flue shall be made by wrought or cast-iron pipe at least 3 feet long; other piping may be of galvanized iron.

#### STORM AND SURFACE WATER.

SECTION 14. Rain-water leaders shall not be connected to sewage stack at any point above basement or cellar ceiling, and shall be trapped. Wherever a surface drain is installed in a cellar or basement, it shall be provided with a deep seal trap and back-water valve. Drain pipes from fixtures subject to back flow from sewer shall be supplied with back-water valves.

#### REFRIGERATOR WASTE AND DRIP PIPE.

SECTION 15. All drip or overflow pipes shall be extended to some place in open sight, and in no case shall any such pipe be connected directly with the drain pipe. No waste pipe from a refrigerator or other receptacle in which provisions are stored shall be connected directly with drain or waste pipe. Refrigerator wastes connecting with two or more stories shall be supplied with a trap on the branch for each floor, and extended through the roof.

## STEAM EXHAUSTS, DRIPS, ETC.

SECTION 16. No steam exhaust, drip or blow-off pipe shall be connected to drainage system except through a condensing tank of sufficient capacity to liquefy all steam that may be received, and discharge same on sewer side without vapor. Vapor pipe shall be carried from tank to a point 3 feet above the roof.
